Chapter 63: The Unstoppable Growth in a Year Outside the Inner Worlds

Given the exponential nature of the Inner Worlds and the time dilation between the outside multiverse and the realms within, the growth of forces within these inner worlds becomes even more staggering when measured over the span of an entire year outside.

In one year outside the Inner Worlds (365 days), this corresponds to 365 years inside the inner realms. This means that in the course of just a year in the outer multiverse, the forces of the Divine Triad's Inner Worlds will grow at a rate that's beyond what could be comprehended by any beings outside of these realms.

Calculating the Growth of Forces in a Year Outside the Inner Worlds

Since one year outside equals 365 years inside, the forces in the inner worlds will experience an exponential growth factor of 365 times their previous numbers in just one year.

---

1. Lumiel's Army of Light (Luxoria Eterna)

Celestial Archons: 10,000

Increase in a Year: 10,000 * 365 = 3,650,000

Total: 3,660,000

Luminara Knights: 1 billion

Increase in a Year: 1,000,000,000 * 365 = 365 billion

Total: 366 billion

Lightborn Legion: 100 billion

Increase in a Year: 100,000,000,000 * 365 = 36.5 trillion

Total: 36.6 trillion

Seraphim Riders: 5 million

Increase in a Year: 5,000,000 * 365 = 1.825 billion

Total: 1.83 billion

---

2. Umbrios' Shadow Legion (Umbra Nexum)

Shadow Warlords: 50,000

Increase in a Year: 50,000 * 365 = 18.25 million

Total: 18.3 million

Ebon Knights: 500 million

Increase in a Year: 500,000,000 * 365 = 182.5 billion

Total: 183 billion

Nocturnal Stalkers: 10 billion

Increase in a Year: 10,000,000,000 * 365 = 3.65 trillion

Total: 3.66 trillion

Nightshade Beasts: 2 million

Increase in a Year: 2,000,000 * 365 = 730 million

Total: 732 million

---

3. Drakion's Draconic Host (Drakarys Aeterna)

Draconian Overlords: 20,000

Increase in a Year: 20,000 * 365 = 7.3 million

Total: 7.32 million

Flameborn Legionnaires: 1 billion

Increase in a Year: 1,000,000,000 * 365 = 365 billion

Total: 366 billion

Skybound Wyverns: 100 million

Increase in a Year: 100,000,000 * 365 = 36.5 billion

Total: 36.6 billion

Infernal Titans: 1 million

Increase in a Year: 1,000,000 * 365 = 365 million

Total: 366 million

Summary of Growth Over a Year Outside the Inner Worlds

The forces within the Inner Worlds grow at an exponential rate, and within just one year outside the inner worlds, the power of these realms skyrockets. Here's a breakdown of the updated totals after a full year:

---

1. Lumiel's Army of Light (Luxoria Eterna)

Celestial Archons: 3.66 million

Luminara Knights: 366 billion

Lightborn Legion: 36.6 trillion

Seraphim Riders: 1.83 billion

2. Umbrios' Shadow Legion (Umbra Nexum)

Shadow Warlords: 18.3 million

Ebon Knights: 183 billion

Nocturnal Stalkers: 3.66 trillion

Nightshade Beasts: 732 million

3. Drakion's Draconic Host (Drakarys Aeterna)

Draconian Overlords: 7.32 million

Flameborn Legionnaires: 366 billion

Skybound Wyverns: 36.6 billion

Infernal Titans: 366 million

Conclusion

In the course of a single year in the outer multiverse, the forces of the Inner Worlds grow to unimaginable numbers. The Divine Triad, with their control over the Lesser Absolutes and their vast realms, ensure that the Inner Worlds continue to expand at an exponential rate. However, as the Divine Triad has no intention of bringing these forces outside their realms, the inhabitants remain protected in their domains, and the outside multiverse is secure under the strength of the already existing forces, such as the Apostles of God, Heavenly Soldiers, Dark Apostles, Shadowkins, Fiery Dragon Lords, and others.

Despite the rapid growth of the Inner Worlds, the Divine Triad's decision to keep these realms contained ensures that the balance of power remains in harmony.
